ABOUT ME

I'm a full-stack web and app developer pursuing my B.E. in IT at VCET College. I'm looking for an entry-level position to strengthen and expand my technical skills. I excel at problem-solving, and my areas of strength include design and integration.

PROJECTS

- **BLOG WEBAPP**

  TECHNOLOGY USED : REACTJS, NODEJS, EXPRESS JS, MONGODB
  - A blog writing website where users can quickly start and modify their own blogs
  - For development, MERN stack is employed.

- **MUSIC PLAYER WEBAPP**

  TECHNOLOGY USED : REACTJS, NODEJS, EXPRESS JS, MONGODB
  - A web-based app featuring music.
  - MERN stack utilized for development of music playing capabilities

- **PORTFOLIO WEBSITE**

  TECHNOLOGY USED : NEXTJS
  - A website that is totally responsive and houses my portfolio
  - Nextjs is used as the framework, and it is deployed on Vercel

- **HEALTH CALCI APP**

  TECHNOLOGY USED : FLUTTER, FIREBASE
  - Based on user inputs, a Flutter-based app calculates health-related quantities like as BMI, BMR, calories, etc.
  - In order to authenticate users and save their data, I connected Firebase to Flutter widgets.

- **PASSWORD SAVER APP**

  TECHNOLOGY USED : FLUTTER
  - App for saving passwords on the mobile device.

EDUCATION

- **2020 - 2024**

  8.71(cgpi) till sem 5

  MUMBAI UNIVERSITY (VCET)
  - Bachelor of Engineering in Information Technology

- **2018 - 2020**

  86.15%

  VARTAK COLLEGE
  - Higher Secondary school (HSC)
